

The Fullerton School District Board of Education’s primary responsibility is to set the direction for the district by establishing the vision, goals and policies of the district. As a board, our primary focus is on student learning and achievement. Working together with the community, parents, students and staff we are able to fulfill our mission statement and provide an innovative, high-quality educational program for all students in a safe learning environment.

During these difficult budgetary times our students and staff are fortunate to have so many dedicated and supportive members of the Fullerton community as supporters. On behalf of the Board of Trustees I would like to offer our thanks to all who have been so generous with both your time and financial resources. Your support has helped to guarantee that our students are receiving a 21st Century education that integrates technology and the arts into the classroom.

We have a lot to be proud of in our district. Our students continue to achieve as indicated by the growth in our test scores and our innovative programs have received recognition and awards, along several members of our staff. Our work is not done, but by keeping our focus on excellence and working together, we will continue to have, as our motto says “Great Schools - Successful Kids”.

Warm regards,

Lynn Thornley

President, Board of Trustees 2011
