

Importing DataDirector scores into PowerGrade

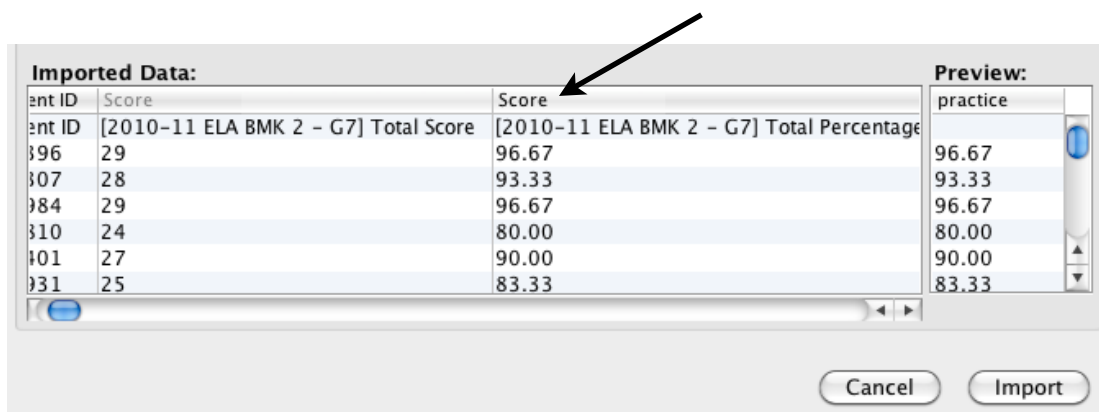

- 1.) Open the Assessment through the Assessment tab
- 2.) Click on “View Assessment Summary” found in the Assessment Options section
- 3.) Click on the blue “Tab” icon to download a tab-delimited text file onto your computer

- 3.) Open PowerGrade and select the appropriate class and highlight the assignment
- 4.) Under the Tools menu, select “Import Scores”

- 5.) Click on the Advanced tab and select the header name of the column you would like to import, then click on “import” (make sure that the type of file is “tab-delimited”)

- 6.) You should now see the scores in PowerGrade
