II. School Climate

School Safety Plan

A comprehensive school safety plan was developed and approved prior to March 1, 2000 in compliance with Education Code Sections 33126, 35256 and 32286 as well as applicable District policies and regulations. Each year, prior to March first, the school's safety plan is reviewed, updated and discussed with staff. Annually, during the month of July, the school reports on the status of its safety plan, including a description of the plan's key elements. The safety plan was updated on April 6, 2007 and was reviewed with school staff on May 2, 2007.

The key elements of the plan include: a) providing a safe teaching and learning environment for all students and staff members, b) ensuring that all students are safe and secure while at school and school sponsored activities and are encouraged to use safe practices when traveling to and from school and/or school related activities, c) making district programs and community resources available to students and parents, and d) creating a school where

students, parents, staff and community members interact in an atmosphere of mutual respect that enhances the environment for learning. A copy of the plan is available at the school office and will provide a more detailed description of each element of the plan including specific actions, resources and timelines to be implemented by the school.

School Discipline Practices

The Board of Trustees believes that all students have the right to be educated in a positive learning environment free from disruptions. It is the policy of the Fullerton School District to encourage and support staff in the implementation of a positive school climate that teaches students the meaning of equality, human dignity, and mutual respect and tolerance. This support and encouragement encompasses the use of cooperative learning strategies that foster positive interactions among students of diverse backgrounds and also promotes the teaching of nonviolent conflict resolution techniques. Programs such as Service Learning, Peer Assistance Leadership (PAL), and Friday Night Live are examples of ways that are used in schools to promote positive attitudes and behaviors among students.

The District believes that positive recognition and rewards are the cornerstone of an effective behavior/discipline program. Schools are encouraged to involve students and parents in the process of establishing behavior expectations and rewards/consequences. Regular and frequent communications between parents and the school, as well as a hierarchy of consequences, are integral parts of the school's discipline policy and procedure. Consistency in the implementation of both rewards/recognition and consequences are also key aspects of an effective and fair behavior program found in the classrooms of the school. Board Policy encourages staff to use preventative measures and positive conflict resolution techniques whenever possible.

Suspensions and Expulsions

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

III. School Facilities

School Facility Conditions and Improvements

The District takes great efforts to ensure that all schools are clean, safe, and functional. Listed below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Orangethorpe Elementary School has 31 classrooms, a library media center, and a multi-purpose room. The main campus was built in 1951. Additions were constructed in 1954, 1956 and 1964. Eleven portable classrooms were added between 1963 and 2002.

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

The District has established cleaning standards for all schools in the district. A summary of these standards is available at the district maintenance office. The Maintenance and Operations staff works with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior and exterior painting, and floor systems. For the 2006-07 school year the district budgeted \$606,502 for the deferred maintenance program.

Teacher Evaluation Process

Administrators evaluate all district teachers based on the California Standards for the Teaching Profession (CSTP). All non-tenured teachers are evaluated twice per year and tenured teachers are evaluated every other year. The principal and teacher share the results of the evaluation, and a copy is filed in the employee's personnel file in the Personnel Department. Results of the evaluation are considered confidential.

The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 9, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at the CDE Web site at <http://star.cde.ca.gov>. *Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.*

IX. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. These ranks are published when the Base API is released each March. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2004	2005	2006
Statewide	3	3	2
Similar Schools	2	2	2

API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

State Award and Intervention Programs

This category did not pertain to any Fullerton School District schools during the 2006-07 school year.

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District
Overall	Yes	No
Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	Yes	No
Percent Proficient - Mathematics	Yes	Yes
API	Yes	Yes
Graduation Rate	N/A	N/A

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

X. Instructional Planning and Scheduling

School Instruction and Leadership

Orangethorpe School's staff uses a balanced literacy framework to address the reading, writing, and oral language needs of the students. Students are formally assessed four times a year with three benchmark assessments and the state STAR testing, and more frequently through informal teacher assessments. Technology is infused into math, science, and social studies with all sixth graders assigned a laptop for daily classroom use. The Student Success Team (SST) monitors students at risk for not meeting state standards and assesses those students needing more intensive intervention for special education. English learners are provided English language development for a minimum of thirty minutes daily. GATE students are clustered for enrichment instruction and activities in grades three through six. Students with learning disabilities are provided support through the resource specialist, speech and language specialist, or the special day program. A comprehensive physical education is provided to all students, kindergarten through sixth grade, two days each week.

Orangethorpe's principal has 14 years experience as a site administrator and 21 years as an educator. He has served two years as principal of Orangethorpe School.

Professional Development

The State Department of Education requires all teachers to have a completed Bachelors degree plus 20 additional units of credit to be certificated to teach in California public schools. The school principal prepares teaching assignments. All of Orangethorpe Elementary School's teachers are appropriately credentialed.

Orangethorpe staff participates in district-wide staff development days in order to analyze data and develop the instructional goals for the year. Staff members also collaborate on Wednesdays and twice a week as a Professional Learning Community.

Instructional Minutes

This table displays a comparison of the number of instructional minutes offered at the school to the state requirement for each grade level.
