## School Climate

### School Safety Plan

A comprehensive school safety plan was developed and approved prior to March 1, 2000 in compliance with Education Code Sections 33126, 35256 and 32286 as well as applicable District policies and regulations. Each year, prior to March first, the school's safety plan is reviewed, updated, and discussed with staff. Annually, during the month of July, the school reports on the status of its safety plan, including a description of the plan's key elements. The most recent safety plan update took place on October 19, 2006, and was reviewed with school staff on October 26, 2006.

The key elements of the plan include: a) providing a safe teaching and learning environment for all students and staff members, b) ensuring that all students are safe and secure while at school and school sponsored activities and are encouraged to use safe practices when traveling to and from school and/or school related activities, c) making district programs and community resources available to students and parents, and d) creating a school where students, parents, staff and community members interact in an atmosphere of mutual respect that enhances the environment for learning. A copy of the plan is available at the school office and will provide a more detailed description of each element of the plan including specific actions, resources and timelines to be implemented by the school.

### School Discipline Practices

The Board of Trustees believes that all students have the right to be educated in a positive learning environment free from disruptions. It is the policy of the Fullerton School District to encourage and support staff in the implementation of a positive school climate that teaches students the meaning of equality, human dignity, and mutual respect and tolerance. This support and encouragement encompasses the use of cooperative learning strategies that foster positive interactions among students of diverse backgrounds and also promotes the teaching of nonviolent conflict resolution techniques. Programs such as Service Learning, Peer Assistance Leadership (PAL), and Friday Night Live are examples of ways that are used in schools to promote positive attitudes and behaviors among students.

The District believes that positive recognition and rewards are the cornerstone of any effective behavior/discipline program. Schools are encouraged to involve students and parents in the process of establishing behavior expectations and rewards/consequences. Regular and frequent communications between parents and the school, as well as a hierarchy of consequences, are integral parts of the school’s discipline policy and procedure. Consistency in the implementation of both rewards/recognition and consequences are also key aspects of an effective and fair behavior program found in the classrooms of the school. Board Policy encourages staff to use preventative measures and positive conflict resolution techniques whenever possible.

### Suspensions and Expulsions

This table displays the rate of suspensions and expulsions (the total number of incidents divided by the total enrollment) at the school and district levels for the most recent three-year period.

### School Facilities

#### School Facility Conditions and Improvements

The District takes great efforts to ensure that all schools are clean, safe, and functional. Listed below is more specific information on the condition of the school and the efforts made to ensure that students are provided with a clean, safe, and functional learning environment.

Sunset Lane Elementary School has 31 classrooms, a library media center, a daycare center, a modular restroom building and a multi-purpose room. The main campus was built in 1965. Additions were constructed in 1966 and 1972. Thirteen portable classrooms were added between 1967 and 2001. The daycare building was purchased in 2005. The multipurpose room was completed in 2006.

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

The District has established cleaning standards for all schools in the district. A summary of these standards is available at the district maintenance office. The Maintenance and Operations staff works with the custodial staff to develop cleaning schedules to ensure a clean and safe school.

The District participates in the State School Deferred Maintenance Program, which provides state matching funds on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school

building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior and exterior painting, and floor systems. For the 2005-06 school year, the district budgeted \$535,354 for the deferred maintenance program.

## Teacher Evaluation Process

Administrators evaluate all district teachers based on the California Standards for the Teaching Profession (CSTP). All non-tenured teachers are evaluated twice per year and tenured teachers are evaluated every other year. The principal and teacher share the results of the evaluation, and a copy is filed in the employee's personnel file in the Personnel Department. Results of the evaluation are considered confidential.

## Accountability

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ap/>.

### API Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest 10 percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest 10 percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing 10 schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2003-04	2004-05	2005-06
Statewide	10	10	10
Similar Schools	1	1	7

## API Changes by Student Group – Three-Year Comparison

This table displays by student group the actual API changes in points added or lost for the past three years, and the most recent API score. Note: "N/A" means that the student group is not numerically significant.

Group	Actual API Change			API Score

## Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

## AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District
Overall	Yes	Yes
Participation Rate - English-Language Arts	Yes	Yes
Participation Rate - Mathematics	Yes	Yes
Percent Proficient - English-Language Arts	Yes	Yes
Percent Proficient - Mathematics	Yes	Yes
API	Yes	Yes
Graduation Rate	N/A	N/A

## Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.

Indicator	School	District

Number of Schools Currently in Program Improvement	---	5
Percent of Schools Currently in Program Improvement	---	25.0

## State Award and Intervention Programs

This category did not pertain to any Fullerton School District schools during the 2005-06 school year.

## Instructional Planning and Scheduling

### School Instruction and Leadership

At Sunset Lane Elementary School, support is offered for all students with special needs. GATE students are clustered in classes with high achieving students and many of our teachers have been trained in strategies for teaching gifted students. Our Resource Specialist works closely with grade levels to identify students in need of academic support. This support is provided in a variety of settings throughout the school day as well as before and after-school interventions. English Language Learners receive instruction both in small groups and within the classroom.

Sunset Lane's Leadership Team consists of representatives from each grade level, ELD, and Special Education. The team discusses current needs and developing trends in education and serves as a liaison to staff.

Parents and staff are involved in school decision-making through a variety of opportunities including School Site Council, English Language Advisory Committee, PTA, School Leadership Team, and staff meetings.

Sunset Lane's principal, Mrs. Paula K. Pitluk, has been a member of the Fullerton School District for six years. Mrs. Pitluk also has many years of teaching experience in Cerritos and Yorba Linda, as well as out-of-state. Mrs. Pitluk received her B.A. from Ohio State University, her M.S. from California State University, Long Beach and her Administrative Services credential from California State University, Fullerton.

### Professional Development

During the 2005-06 school year, teachers at Sunset Lane attended school-site, district, and county-wide trainings in technology, school safety, analysis of student achievement data, and English Language Development. Additional training included GLAD, Step Up to Writing, and Professional Learning Communities. Sunset Lane teachers have also participated in CLAD training and graduate degree programs.

### Instructional Minutes

This table displays a comparison of the number of instructional minutes offered at the school to the state requirement for each grade level.

Grade Level	Instructional Minutes	
	Offered	State Requirement
K	37,280	36,000
1	52,830	50,400
2	52,830	50,400
3	53,500	50,400
4	55,020	54,000
5	55,020	54,000
6	55,020	54,000

### Early-Release/Minimum Days

All schools in the Fullerton School District have early-release Wednesdays. This non-student time is used for staff development and trainings. All Fullerton School District schools also have minimum days throughout the school year. The majority of these typically occur during parent-teacher conference weeks, giving teachers more time for scheduling conferences with parents.

Early-release and minimum days do not reduce the number of Instructional Minutes, as shown in the chart above.
